Hi, I am Sri Kathiravan working as Automation tester in Cognizant. I was building automation frameworks using Selenium WebDriver and CRAFT framework for testing web applications built upon Angular, Salesforce and Maximo and having working knowledge on API testing (Postman, Rest assured) and SQL.
I can learn new technologies and tools at a faster pace. I am open to challenging Roles and Relocation.

EXPERIENCE

DEC 2020 - PRESENT
SDET / QA ENGINEER,

- ➤ I am **designing, developing, executing and maintaining Automation Suites** for Web applications built upon Salesforce, Angular and IBM Maximo frameworks using **Selenium WebDriver with Java** and CRAFT framework.
- ➤ I was executing the test cases and sharing the test results to the stakeholders.
- ➤ I was a tester in web development projects in **Agile** environment.
- ➤ I was testing features developed by developers throughout sprints to ensure working software with high quality as per committed team sprint objectives.
- ➤ I was raising issues as bugs or user story in **JIRA** or **Azure DevOps** and tracking it and retesting it if it is fixed.
- ➤ I was ensuring high quality deliverable is passed on to the UAT.
- ➤ I was creating **test cases, test plans and test reports** and providing test coverage reports/automated test cases percentage.
- ➤ I also did a POC on Katalon Studio for codeless automation testing.

JAN 2020 – MAY 2020
INTERN,

- ➤ Designed and developed Automation testing suite using Selenium, TestNG, Maven, Extent Report, Git and GitHub.
- ➤ Learnt Manual and Automation testing process and methodologies.
- ➤ Learnt Developing automated test cases for Web applications using Selenium with POM, TDD, BDD Cucumber models.

EDUCATION

SEPT 2020
B.E., RMK ENGINEERING COLLEGE
2016-2020
CGPA 7.23

MAY 2016
HSLC, MOUNT PARK MHS SCHOOL
2014-2016
SCORE 92.8%

MAY 2014
SSLC, VALLIYAMMAL MHS SCHOOL
2012-2014
SCORE 97.4%

SKILLS

- ❖ Programming Languages : **Java, Python, SQL, JavaScript.**

- ❖ Web Automation Testing : **Selenium WebDriver, Katalon Studio, CRAFT.**

- ❖ Tools Known : **Git, GitHub, JIRA, Azure DevOps.**

- ❖ API Testing : Rest Assured, Postman.

- ❖ Web Development : Angular, Spring Boot

- ❖ Database Management Systems : MySQL, Microsoft SQL Server.

Thank You
